Information regarding the contents and levels of metals in this product is available online at: http://www.aapfco.org/metals.htm

Manufactured in the U.S.

# ROOT BENEFICIAL MICROBES

# ROOT

A biological product containing beneficial bacteria.

### DIRECTIONS FOR USE TRANSPLANTING

- Mix 1 tsp of ROOT per gallon of water
- Transplant and apply ROOT solution as a root drench

# **VEGETATIVE & FLOWERING PLANTS**

- Mix 1 tsp of ROOT per gallon of water
- Apply ROOT solution as a root drench to the growing medium every two weeks
  GENERAL USAGE
- No brewing needed
- Use ROOT as a separate feeding from regular nutrient feedings
- Do not adjust the pH of the solution
- Not recommended for use in Recirculating or Deep Water Culture Systems
- Use within 6 hours of mixing ROOT into water
- When used in drip irrigation, proper system sanitation and maintenance is required

#### STORAGE

Store in a cool dry place away from direct sunlight; avoid extreme heat or cold for optimal shelf life.

# Keep out of reach of children and animals. Harmful if swallowed.

## WARRANTY

Any liability, expressed or implied, is limited to the purchase price of this product.
